Age: [19]

OBJECTIVE

Computer Science and Engineering student at CUET with a strong foundation in C, C++, Python, and data structures and algorithms. I have built and deployed a working AI chatbot with FastAPI and I am seeking an internship or entry-level role to build practical software and grow as an engineer.

EDUCATION

B.Sc. in Computer Science and Engineering	Ongoing
Chittagong University of Engineering & Technology (CUET) Level 1, Term 1	
Higher Secondary Certificate (HSC)	2025
Mohsin College GPA: 5.00 / 5.00	
Secondary School Certificate (SSC)	2023
St. Placid School and College GPA: 5.00 / 5.00	

TECHNICAL SKILLS

Languages	C, C++, Python
Core Concepts	Data Structures and Algorithms (intermediate), Problem Solving
Backend and AI	FastAPI, Uvicorn, REST APIs, Pydantic, LLM API integration (Groq)
Tools and Platforms	Git, GitHub, VS Code, uv, Render, Netlify

PROJECTS

HireMeAI: AI portfolio chatbot	Python, FastAPI
- Built a website where an AI assistant answers recruiter-style questions about my background, skills, projects, and education. - Developed the backend with FastAPI and Uvicorn, including a POST /chat endpoint that returns answers as JSON. - Reads my resume PDF with pypdf, converts it into structured JSON, and gives it to an LLM (Groq) as context for each answer. - Built the chat page in HTML, CSS, and JavaScript with Markdown rendering, suggested questions, and a New chat button. - Deployed the backend on Render and the frontend on Netlify, kept API keys in environment variables, and configured CORS.	

LANGUAGES

Bengali (Fluent) | English (Fluent)
